MEMORANDUM FOR Incoming Staff and Faculty, Noncommissioned Officer Leadership Center of Excellence (NCOL CoE), Fort Bliss, Texas 79918

SUBJECT: Staff and Faculty Development and Recognition Program (SFDRP)

1. Welcome to the NCO Leadership Center of Excellence (NCOL CoE), where “Leaders Build Lethality, We Develop Leaders.” Congratulations on your assignment to Fort Bliss and the NCOL CoE. Whether you are staff or faculty, you are being placed in a position of responsibility as professional Army staff and faculty. As such, we expect you to display the highest level of competence in modern instructional techniques, subject matter expertise, and the ethics needed to perform your duties and responsibilities to the Army standard.

2. Two of my key strategic lines of effort are Leader Development and Talent Management. As a member of our staff and faculty, you are part of that talent management. We expect you to help develop NCOs at every level to lead the Army’s Soldiers of the future. We accomplish this by counseling, mentoring, setting the example, living the standard, and ensuring only the best are on our staff, on our platforms and in our classrooms educating our future NCOs and sergeants major.

3. Training and Doctrine Command (TRADOC) defines faculty as any member of an Army education or training organization who is responsible for any component of the ADDIE (Analysis, Design, Development, Implementation and Evaluation) process supporting education and training. Faculty includes instructors, facilitators, developers, writers, training and instructional development managers, and course managers. Instructors refer to faculty that deliver instruction, including instructors, facilitators, and contractors assigned teaching responsibilities. Because our instructors facilitate learning more than instruct, we refer to most of them as facilitators. We define staff as the academic support workforce that includes administrators, technicians, assistants, and Army authorized contractor personnel.

4. We developed this Staff and Faculty Development and Recognition Program "Check Ride Handbook" as a guide for you to monitor and track your reception and integration into the organization, and your development and progress in the Staff and Faculty Development and Recognition Program. Use it as your personal desk reference.

SUBJECT: Staff and Faculty Development and Recognition Program (SFDRP)

5. We endeavor to provide badging credentials for our faculty in accordance with the TRADOC Faculty Development and Recognition Program (FDRP) (Army Badging). While the program makes it a voluntary element of the Continuing Professional Development Program (CPDP) Phase IV, I strongly encourage all of our Facilitators and Instructors to pursue the various Army Instructor Badges, from Basic to Senior to Master.

6. My point of contact for the Staff and Faculty Development and Recognition Program and this "Check Ride Handbook" is Mr. Joseph "Tank" Vargo, Senior FDRP Manager, Staff and Faculty Development Directorate at 7 44-8431, e-mail: joseph.e.vargo.civ@mail.mil. Please feel free to contact him for any assistance.

Welcome aboard and Good Luck!

PURPOSE

The NCO Leadership Center of Excellence (NCOL CoE) is committed to providing newly assigned staff and Family members world class opportunities. The Check Ride Handbook serves as a guide for monitoring integration into the organization. Participants can also track: self development, certification, professional and educational goals through the Staff and Faculty Development and Recognition Program. Additionally, this guide enables the leadership to take an active role in individual development.

APPLICABILITY

The Check Ride Handbook serves as a valuable tool for personnel assigned or attached to the NCOL CoE. Training is delivered through both the asynchronous and synchronous learning environment utilizing multimedia and mobile training teams that facilitate curriculum as mission requirements dictate. Facilitators must meet certification requirements.

ENHANCEMENT

The Army operates in an ever changing world which requires its leaders to focus on forward thinking as it relates to future learning capabilities. The operational and institutional environments must be linked to a culture of advanced learners who progressively perform at higher cognitive levels in order to logically adapt to unpredictable situations. Self-development provides learners the necessary skills, knowledge, and behaviors that are essential to the Army Profession.

Vision, Mission, History

**NCOL CoE Vision**

The premier institution driving innovative development for enlisted leaders; constantly focused on readiness.

**NCOL CoE Mission**

Provide professional military education that develops enlisted leaders into holistically fit, disciplined, and well-educated professionals capable of meeting the challenges of large-scale combat operations in a multi-domain environment.

**What We Are For**

Develop, Integrate, Deliver Education, and Training Readiness.

**History**

The U.S. Army Sergeants Major Academy was founded in July 1972, as a special preparation source for the Army’s senior enlisted leaders. Throughout its more than 46-year history, the Academy has taken on additional missions in the name of Noncommissioned Officer Professional Military Education. Today, with more than 24 missions under its roof, a need arose to better organize the institution to manage these missions and to refocus the Academy’s efforts towards the Sergeants Major Course. On June 22, 2018, The NCO Leadership Center of Excellence officially stood up and assumed the responsibilities of the NCO Professional Development System, becoming the premier institution driving innovative development for enlisted leaders, constantly focused on readiness. The USASMA is a part of that system and will continue to lead all efforts concerning the Sergeants Major Course assisting the NCOL CoE in developing, integrating and delivering education and training readiness. The NCOL CoE is responsible for developing, maintaining, teaching, and distributing five levels of Enlisted Professional Military Education – Introductory, Primary, Intermediate, Senior and Executive. Each level best prepares the soldier to fight and win in a complex world as adaptive and agile leaders and trusted professionals of Force 2025.

In 2018, the NCOL CoE and USASMA were realigned under the Army University as part of the Combined Arms Center. It is led by a three-star nominative command sergeant major (CSM) Commandant, a one-star nominative CSM Deputy Commandant, and supported by a world-class staff and faculty. More than 90 percent of Sergeants Major Course students graduate with a college degree. It educates NCOs from the sister services and international partner nations.
In addition to our primary mission we have 28 additional initiatives that are accomplished using the organizational structure depicted below. It consists of the Commandant (President), a three-star nominative Command Sergeant Major (CSM), a one-star nominative Command Sergeant Major (CSM) Deputy Commandant (Vice President), the Commandant’s Special Staff, and an administrative support staff, led by the Chief of Staff (Vice President of Administration and Operations), and a Department of the Army Civilian (DAC). There are four primary elements that govern the organization’s functions: Assistant Commandant Staff and Faculty, Assistant Dean, Curriculum Development, and the International Military Student Office.
Sergeants Major Course (SMC)

The SMC is a 10-month course focusing on attributes and competencies required of operational and strategic level leaders whose spheres of influence increases significantly and is designed to enhance critical and creative thinking skills to maximize that influence.

Master Leader Course (MLC)

The MLC is a 15-day, 112 hour program of instruction that focuses on leadership, management, operations, joint operations, Soldier readiness, and communications that assist with preparing for transition from a tactical leader to an operational leader and prepares Sergeants First Class for assignments as Master Sergeants.

Basic Leader Course (BLC)

The BLC is designed to prepare Soldiers for promotion to Sergeants who are ready to serve as team leaders. It is a 22-day, 169 hour program of instruction focusing on the six leader core competencies: Readiness, Leadership, Training Management, Communications, Operations, and Program Management.

Battle Staff NCO Course (BSNCOC)

The BSNCOC is a 22-day, 175 hour functional course that provides the skills needed to serve as a Battle Staff NCO on battalion and higher staffs. It prepares selected noncommissioned officers to perform the duties of Battle Staff NCOs (Active, Guard and Reserve Component).

Spouse Leadership Development Course (SLDC)

The SLDC is a 40-hour course that educates senior enlisted spouses from the Army, sister services, and global partner nations. It promotes a team-building approach to enhancing and developing leadership skills that support readiness, morale, and a successful command.

Common Faculty Development - Instructor Course

The Common Faculty Development - Instructor Course (CFD-IC) is one of two courses that comprise of the Common Faculty Development Program and is a ten day, 80 hour course designed for new faculty (i.e. instructors, trainers, and facilitators). It is a competency-based course. The learning objectives are based on internationally recognized instructor competencies (IBSTIPI).

The course prepares you to instruct/facilitate learning in an adult learning environment. CFD-IC introduces new instructors to Army instructor roles and responsibilities, instructing and learning models, professional and ethical requirements; also, classroom management and a process for building learning objectives and lesson plans, effective communication techniques, introductory/basic technology in the classroom and an introduction to the Army Writing Style. Throughout the course students will practice teaching/facilitating, beginning with short simple practicum exercises to increasingly longer and more complex exercises, culminating into an end of course lesson presentation.

Common Faculty Development - Developer Course

The Common Faculty Development - Developer Course (CFD-DC) is a two-week, 80 hour course designed to provide Army training and curriculum developers with the skills necessary to produce lesson plans and instructional products for institutional and operational training and education settings. The Course (CFD-DC) is relevant to all Army developers including Noncommissioned Officers, Warrant Officers, Officers, Department of the Army Civilians, and authorized contractors who are assigned to development curriculum for training and education in Initial Military Training, the Noncommissioned Officer, Warrant Officer, Officer, and Civilian Education Systems and functional courses.

The course goal is to introduce developers to the process of lesson plan development using the Analysis, Design, Development, Implementation, and Evaluation (ADDIE) and the Accountable Instructional System (AIS). The course includes instructional modules addressing areas of Army Learning Enterprise Goals, Adult Learning Principles, and Lesson Development Concepts. It includes both in-class and out-of-class requirements. Individually, and as a member of a team, each student will review, revise, develop and coordinate instructional products supporting lesson plan development.

Blackboard Training Course

The Blackboard Training Course enables beginning Instructors and Training Developers to use the Blackboard (Bb) learning management system to support classroom instruction, blended learning, and/or distance learning. The course covers the fundamentals of the Bb system and provides opportunities for guided student practice on the following topics: system navigation, customizing course content, interactive and collaborative tools, and assessments. The courses are: Bb 101 Basic, Bb 201 Advanced, and Bb 301 Administrator.

The Army Training Support Center (ATSC) Enterprise Lifelong Learning Center conduct synchronous and asynchronous Blackboard training for Version 9.1 for instructors and administrators. Please check the Domain Administrator tab for training adjustments and modifications. Dates are subject to change.

REMINDERS:

- All enrollment requests are processed within 24 - 48 hours of ticket submission.
- All course enrollments for 101, 201, and tutorial courses are open monthly.
Process for Submitting Training Requests:

Ensure that all enrollment requests, sandbox reviews, certificates of completion for ATSC ELLC provided trainings such as Blackboard 101, 201 and all advanced level training and tutorial courses (i.e. Domain Admin 301, are submitted via https://athd-crm.csd.disa.mil or sent by e-mail to athd@athdmail.army.mil with the Subject ‘Blackboard Training Request’ by a Domain Administrator who is responsible for tracking training requests and other users with elevated privileges for your organization. This will help to prevent any backlog caused by missed emails, as well as assist with tracking and accountability.

Include in the request:

- LAST NAME, FIRST NAME
- AKO USERNAME
- EMAIL
- DOMAIN/SCHOOL
- LEAD DOMAIN ADMIN
- COURSE REQUESTING

Contact the Army Training Help Desk at 1-800-275-2872 (option 2) or Email-, athd@athdmail.army.mil. Subject: Blackboard or via https://athd-crm.csd.disa.mil. (Requires CAC access)

Training and Education Developer Middle Managers Course

The Training and Education Developer Middle Managers Course (TEDMMC) is a 5 day, 40 hour course designed to enhance the skills of training and education developers to manage the development, delivery of training and education products and in addition to learning methodologies. The TEDMMC is offered as a resident or non-resident course supported by video tele-training (VTC) and employs Train-the-Trainer cost efficiencies. The course is intended to be a follow on to the Common Faculty Development Developers Courses (CFD-DC).

Senior Training and Education Managers Course

The Senior Training and Education Managers Course (STEMC) STEMC provides a practitioners overview of how HQ TRADOC support centers and schools in terms of mission and function. The focus is on managing and integrating training development activities with capability, force, and materiel development. Management of integration and standardization systems are studied from the perspective of senior training development managers. This course is designed as a virtual classroom using Video Teleconference (VTC), Defense Collaboration Services (DCS), Blackboard and telecommunications capabilities. The STEMC is presented quarterly by HQ TRADOC to students located at Centers and Schools.

1. Provide senior center and school training and education managers (MAJ/GS-13/SGM and higher) and support staff, the knowledge and skills necessary to manage their programs, in compliance with TRADOC regulations and guidelines.

Asynchronous Distributed Learning Instructor Course

The Asynchronous Distributed Learning Instructor Course (AdLIC) is a 45 hour DL course taught asynchronously with an instructor in the loop via Blackboard (online) over a 4 week period engaging students for approximately 10 hours per week. ADLIC is designed to teach the fundamentals of asynchronous instruction and provide experienced instructor/facilitators with the skills and competencies necessary to facilitate asynchronous instruction. ADLIC introduces effective online facilitation methodologies, theories, and instructional strategies for effective facilitation, appropriate use of asynchronous online teaching technologies, and introduces scenario-based exercises that require students to apply the basic principles of asynchronous online facilitation.

Evaluator Instructor Course

The Evaluator Instructor Course (EIC) is a 2 day, 16 hour workshop certification course designed to provide you with the knowledge and skills needed to evaluate and assess instructor/facilitators with a level of standardized competencies, while utilizing various rubrics, primarily Appendix G, of TR 600-21, which incorporates the International Board of Standards for Training, Performance and Instruction (IBSTPI). This certification is a requirement to use the rubrics and assess the instructor’s facilitation, also it’s apart of the Faculty Development Recognition Program (FDRP) process for badging requirements validation. The course is also offered in the Army Learning Management System (ALMS).

Video Teleconference Instructor Training Course

The Video Teleconference Instructor Training Course (VTC ITC) is a 40 hour course designed to teach military instructors how to deliver instruction over the U.S. Army’s Tele-training Network. As such, the course presents definitions, terminology, instructional methods, and techniques used in VTC. The course presents exercises and discussions designed so students experience firsthand how two-way audio, two-way video conferencing systems work.

Faculty Development Program Phase 2

The concept of FDP 2 is to help fill the gap between all NCOL CoE and USASMA courses. The intent is to offer focused workshops on local developmental organizational needs. Topics will vary based from the need of the organization. The workshops are geared toward informal and formal learning opportunities linked toward specific educational learning needs and learning outcomes. SFDD is responsible for refresher training, recertification, and educational based training for faculty. Departments are responsible for course curriculum train up.

Faculty Development Program Phase 4

The concept of the Faculty Development Program Phase 4 (FDP4) is to provide and support civilian, military, staff and certified faculty to continue in their quest for professional development. This may include faculty development courses, credentialing opportunities, short term faculty development programs, and other continuing educational opportunities for professional growth and development. Note: SFDD FDP 4 videos will be on Bb and available once conversion from .mil to .com is complete.
Advanced Faculty Development Course

This course is designed to provide advanced facilitation skills to instructors/facilitators on a variety of evidence based teaching concepts. Topics include: training prior to teaching, model teachers use varied instructional methods & effective skills and behaviors, course content selection, learning objectives and assessment and evaluating students and rubrics, and constructing a syllabus (Advance Sheet and Lesson Plans).

Topic and method of instruction assignments for practicums are referenced from the Liberating Structures Listing for method of instructions. You will team teach a 50-minute class on your assigned topic and use one of the three assigned Methods of Instructions (MOIs) to deliver your generalized new information (GNI). This course also provides instructor/facilitators with an overview of the Army Learning Model and the teaching strategies they will use in a learner-centric, blended learning environment. Student facilitators will demonstrate the ability to facilitate lessons using inquiry based, case based, and problem based instruction with emerging technologies to assess student performance in the learner centric environment using rubrics and competency based assessments.

Army Writing Style Workshop

This is a 24 hour workshop designed to familiarize you with a writing standard and associated assessment rubrics that will provide an understanding of best practices. The workshop includes: a pre writing assignment, knowledge of the vocabulary needed to discuss writing, a working knowledge of the rubric’s layout and features, understanding of behavioral anchors and how they promote consistent scoring, and finally an awareness of instructor training outline toward norming/collaboration requirements.

TCC/Assessment Development Workshop

This four day, 32 hour, workshop is designed to provide staff and faculty with the knowledge, skills and abilities to develop or revise assessment tools/tests to effectively assess student learning. This workshop is completely collaborative learning/group driven. This course will: discuss and analyze TRADOC assessment regulations, critical thinking, learning objective development and types of test, 2010 Bloom’s Taxonomy, Universal Intellectual Standards, test performance development (hands-on and performance/knowledge-based/written), test plan/blue-prints, and validation and test control. Each enabling learning objective (ELO) will conclude with a group practical exercise (PE) that will become a part of a final group project that will be briefed to the group and instructors. The final project/briefing will be a slide presentation and will serve as a final evaluation. The instructor/s will evaluate the students as a Go/No Go. At the end of this workshop the students will be able to develop/revise, write and validate assessments/tests in support of curriculum development.

Technology in the Classroom

The Technology in the Classroom course is a self paced workshop that can be completed either in the classroom or online. This course covers the Enterprise Classroom Program (ECP) Classroom Equipment Guide, which covers hardware components, software, and calibration. The touch panel features soft-link and troubleshooting measures for the classroom technology. This course also covers the TRADOC Enterprise Training Course.
Instructor Recertification

The Instructor Recertification program helps to reintroduce the concepts and theories of the adult learning environment and also provides a refresher course into the Experiential Learning Model. The center and/or school will develop and administer a recertification process to ensure all faculty are knowledgeable, current, and proficient in educational concepts, methodologies, and techniques. This recertification process may include a recertification course, a series of workshops, observations, review boards, or other appropriate means. Personnel who are assigned to a faculty position will re-certify every five years. Additionally, faculty who are re-assigned to a new CoE/School will re-certify.
As part of the NCO 2020 strategy, the Army incorporated all facilitators/instructors into the badging process.

Through a rigorous certification process, facilitators/instructors will prove they can deliver and facilitate training in accordance with the Army Learning Model. Instructors have always been top notch and capable of training, educating and developing subordinates. The FDRP adds credibility to their professional portfolios while providing them credentials.

Furthermore, upon return to the operational Army, commanders will rely heavily upon their knowledge, skillsets and attributes obtained during their time as facilitators. They, in turn, bring more value to their organization.

Now, a little information about the badge itself. The design concept for the instructor badge ties together military history. It consists of the owl’s quill, the torch of knowledge and the laurel wreath. The overall design of the three badges symbolizes knowledge, leadership and commitment. A ring of 13 stars represents the original 13 colonies and the critical role that instructors play in building the future Army. The torch signifies a zeal for training and education and a commitment to lifelong learning. The rings radiating from the flame of the torch, symbolize the instructors role in the three domains: operational and self-development.

All Army cohorts are represented, through the NCO’s spear, the Officer’s sword and the owl’s quill, which represents the Civilian instructors. The open book symbolizes wisdom attained through training and education. And the phrase ‘expert o creed’ is Latin for “Believe the one who has experience in the matter.”
Faculty Development and Recognition Program

The TRADOC Faculty Development and Recognition Program (FDRP) governs our Badging Program and provides the requirements for our facilitators/instructors to participate. While participation is voluntary, we strongly recommend and encourage our faculty to participate.

All our facilitators/instructors must meet the TRADOC Instructor Certification Requirements, IAW TRADOC Regulation 350-70, in order to receive badging credentials. You must also meet all of the prescribed recognition requirements of TRADOC, Regulation 600-21, Paragraph 3-4, for the Army Basic, Senior or Master Recognition and Badge programs.

The Staff and Faculty Development Directorate serves as our Senior FDRP Manager and all requests for badging must go through that office.

Primary instructor hours are instructional hours accrued during classroom instruction as the “lead” facilitator for a course. Assistant instructor hours do not count toward instructor badge progression. It takes 80 hours to receive the Basic Instructor Badge. It takes 200 hours and one year for the Senior Instructor Badge. It takes 200 hours and two years after the Senior badge to receive the Master Instructor Badge.

You may participate in the FDRP any time after you complete the Instructor Certification Requirements. Notify your immediate supervisor and complete a self-assessment (see TR 600-21). The supervisor will complete a formal counseling to ensure you understand the program requirements and local procedures for documenting progress in the program.
Each year as part of the TRADOC Instructor of the Year and Educator of the Year Competitions, we conduct our own local selection process to submit nominees to TRADOC.

The primary purpose of the competition is to identify and recognize the best instructors/facilitators and educators providing institutional training and education in TRADOC and Army and multi-component schools, institutions, and organizations. We will provide the winner TDY funding to travel to the awards ceremony.

All nominees must meet the following criteria:
- Civilian contractors are not eligible for this competition, per Joint ethics Regulations.
- Instructor of the Year nominees must have served as an instructor for a minimum of six months.
- Instructor of the Year nominees must be graduates of a certified instructor or facilitator training course.
- Military nominees must have passed the most recent Army Physical Fitness Test (APFT) and meet height and weight standards IAW AR 600-9. Military personnel from other services must have passed the physical fitness test and meet the height and weight standards of their respective service.
- Educator of the Year nominees must be from the Sergeants Major Course and are generally persons distinguished for his/her educational and scholarly work (e.g., written/published educational and leadership articles). Note: Educator of the Year nominees are from institutions that produce baccalaureate and graduate level educational outcomes or which provide professional development experiences for Army senior leaders. The Sergeants Major Course is the only course that meets this requirement.
The following pages offer items/tools you can/should add to your toolkit to enhance your capabilities as a Facilitator, regardless of the course(s) you teach/facilitate:

**Army Career Tracker Website**

[Image of a quick start guide for Army Career Tracker](image)

**Army Career Tracker (ACT)** is a leadership development tool that integrates training and education into one personalized, easy-to-use website. Users can search multiple Army education and training resources, monitor their career development and receive personalized advice from their supervisor and Army leadership. In addition, this tool allows Leaders to provide mentorship from any aspect, any location, and at anytime.

With ACT 2.0, you will be able to smartly track and plan your Army career better than ever. New features, improved navigation, and enhanced overall usability are just the start. Improvements behind the scenes make using ACT 2.0 more efficient and streamlined for all your ACT tasks.

Here are a few of our aspects of ACT 2.0:

Not In My Squad (NIMS)

Strengthen your team’s commitment to live our shared identity as Trusted Army Professionals.

The Army doctrine of Mission Command is based on building cohesive teams through mutual trust and shared understanding and purpose. The squad is the foundational team upon which the Army builds its formations. As the Squad Leader, you are responsible for all your team does or fails to do. You are charged with taking the lead in training your squad and instilling discipline and a “winning spirit” in each of your Soldiers. This is your Duty. Your Soldiers, as a cohesive team, must accomplish the mission in the right way (ethically, effectively, and efficiently), striving for excellence and persevering through adversity, challenge, and setback. To do so, they require inspiration, motivation, and committed leadership.

NIMS Squad Assessment Tool

What is the state of mutual trust and cohesion within your squad?

Use this tool to assess the state of mutual trust and cohesion within your squad.

NIMS Workshops

Empower your NCOs to enhance mutual trust, build cohesion, and take ownership of and address critical issues facing today’s Army by conducting a “Not in My Squad” (NIMS) workshop at your installation.

SMA Book Club

Engage with your Soldiers on Army Profession concepts by discussing literature featuring subject matter across many genres.

Sergeant Audie Murphy Club

S.A.M.C.
Created to develop, inspire, and motivate the best leaders possible in the U.S. Army.

General Information: The Sergeant Audie Murphy Club is a private U.S. Army organization for enlisted non-commissioned officers (NCO) only. Those NCO’s whose leadership achievements and performance merit special recognition may possibly earn the reward of membership. Members must... “...exemplify leadership characterized by personal concern for the needs, training, development, and welfare of Soldiers and concern for families of Soldiers (FORSCOM Reg. 600-8, paragraph 1).”

If an NCO meets these pre-requisites, the soldier may then be recommended by his non-commissioned officer chain-of-command to participate in the rigorous board examination process.

The History: The original club was started at Fort Hood, Texas early in 1986. There were several key people at Fort Hood - officer, enlisted, civil service, and a Killeen civilian - who were instrumental in getting this club up and running.

Leading the effort was Lieutenant General Crosbie Saint, then the III Corps commander; his Command Sergeant Major George L. Horvath; III Corps Awards Clerk Jean Crisp, and Don Moore, a Killeen artist who assisted with designing the logo and club awards.

In 1991, then III Corps Commander Lieutenant General Pete Taylor and Command Sergeant Major Richard B. Cayton expanded the Fort Hood installation club to include all of III Corps. This included Fort Riley, Kansas; Fort Sill, Oklahoma; Fort Bliss, Texas; Fort Polk, Louisiana; and Fort Carson, Colorado.

In 1993, CSM Cayton was voted into the Sergeant Audie Murphy Club by the membership and then became the Forces Command Sergeant Major. Soon thereafter, the club became Forces-Command (FORSCOM) wide, including the Reserves and National Guard.

In 1994 at a Sergeant Major of the Army conference, the Sergeant Audie Murphy Club spread Army-wide, to all commands with installations retaining the selection process for their own NCOs. In 1998, it was estimated that the club membership was over 3000 soldiers and was steadily increasing.

The Crest: The crest was designed by one of the original organizers of the club, Mr. Don Moore, a professional illustrator from Killeen, Texas. The primary elements of the crest are ...

The letters SAMC: an abbreviation for the “Sergeant Audie Murphy Club”.

The three stars: separate the letters and represent the “Be”, “Know” and “Do” which is at the core of an Army NCO’s professional spirit.

The majestic American Bald Eagle: the national bird and our country’s symbol for freedom. The eagle also represents the intent of the SAMC to be nationwide.
The laurel: represents the individual achievement of the NCO in the club.
The lightning bolt: represents swift and decisive action taken by the NCO.
The sword is a historical reference and is the symbolic tool of the NCO to cut to the heart of the matter and to lead the charge.
The U.S. Army staff sergeant stripes: represent the highest enlisted rank attained by Audie Murphy.
The powder-blue streamers, the color of the infantry, indicate the words of the NCO philosophy: Loyalty, Caring, Discipline, and Professionalism.

The Motto: “You lead from the front.” ... Audie Murphy

The Medallion: When a soldier is inducted into the Sergeant Audie Murphy Club, he/she is given a formal medallion. The size of the medallion varies in these photos. The FORSCOM (Forces Command) version is silver and approximately 2.75 inches in diameter. The TRADOC (Training and Doctrine Command) version is bronze and is approximately 1.75 inches in diameter. The medallion is suspended by a broad powder-blue ribbon, approximately 18" in length folded. The ribbon’s color represents the symbolic color of the infantry. The medallion is worn around the neck on the outside of the Class A or Dress Blue uniform for official functions such as military balls or Sergeant Audie Murphy Club meetings. Several examples of different unit medallions are shown below.

Credentialing validates the professional skills, training and work experiences and to bolsters the professional technical competence of our military and civilian workforce. The skills gained by our workforce during their service to the Army are recognized by and transferable to the civilian sector through credentialing programs that already exist in the civilian sector. Professional credentialing provides a clear and objective picture of our workforce’s competences, betters their ability to advance, enhances their duty performance and improves the U.S. Army’s readiness.

The vision is to encourage our Soldiers to obtain civilian industry-recognized credentialing related to their Military Occupational Specialties (MOS). Professional credentialing is recognized as clear and objective evidence of an individual’s competence and potential.

TED-T is designed and developed for training and education developers to promote efficient and effective learning product development. TED-T provides integrated, web-enabled delivery of TRADOC Regulation 350-70, its associated pamphlets, and other Army training and education development resources.
Our Guiding Principles

We serve as the conscience and voice of the NCO Corps.

Where there is an Army standard–we set the example.

We exemplify the Army Values (Loyalty, Duty, Respect, Selfless Service, Honor, Integrity, Personal Courage).

Serving the Army in the field is the focus of everything we do.

The quality of our courses is the source of our pride and reputation, and an absolute requirement.

Continuous improvement is essential to our success.

Our people are the source of our strength.

We are - The premier institution driving innovative development for enlisted leaders; constantly focused on readiness.
